

Woven Paper Hearts Class

Scandia Camp Mendocino – June 11, 2021

In this class we will make two different woven paper hearts.

Supplies Needed

- Two different sheets of papers – either 2 different solid colors or one solid and one patterned.
 - Standard-size 8.5” x 11” paper on which you can print the patterns is recommended for this class
 - It is best if the paper is light enough in color to see the pattern pieces printed on it.
 - If you only have white paper, after printing the patterns twice, take one sheet and solidly color the blank side of the entire sheet with a crayon, highlighter or colored pencil.

Construction paper is not recommended because it is too soft and tears easily.

- Scissors

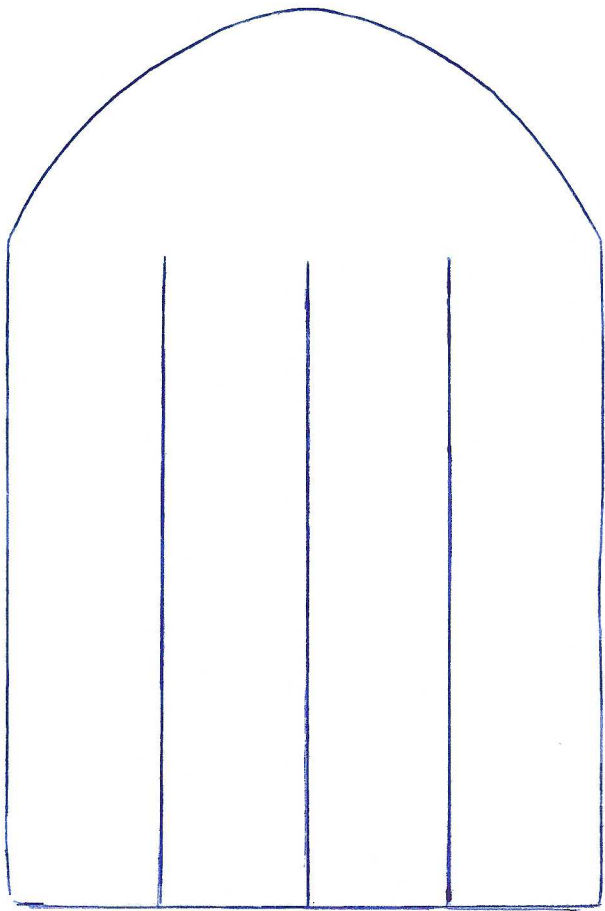

Before class – print the patterns twice, once on each color of paper.

Please do not cut them out.

I look forward to seeing you at class,

Linda Gross
